### **Safety Factor**

You will be unable to move onto the next step along the Healing Pathway (next Chakra) until the client's Being gives you permission to proceed.

Whenever you challenge any Chakra with Open Mode (to move onto the next step of the Healing Pathway Protocol) and you don't get an IMC, it means that there is more information needed before you can proceed. **Scan for more information** from your Scan List, books, cards, Body Atlas etc. Add the relevant information to circuit and challenge the next Chakra again with Open Mode. Once you have done everything required in the current Chakra you will get an IMC and will be able to move onto the next step of the protocol. If you don't get an IMC, you need further information.

## Assemblage Point as a Correction within the Healing Pathway Protocol

If you are in the Heart Chakra and "Assemblage Point" comes up under **CORRECTIONS/Energetic Procedures** on your Healing Menu, only do the following, and do it all in the Heart Chakra:

- 🕒 Find current location.
- 🕒 Find optimum location.
- 🕒 Correct. Use crystal to slowly draw point to midline and then to optimum location. Use IMC to determine pace of movement.
- 🕒 Holographic Display of Integrity of Assemblage Point.

## Vows – Clearing Redundant Vows

Sometimes our development is held back by vows made in the past. With one in three marriages ending in divorce, this provides an example of vows that may still be in place at a spiritual and energetic level from which people need release.

Until redundant vows are cleared people find it hard to 'move on'. We often hear clients say: 'I thought I dealt with the memories/issues around him/her', yet the same person or incidents about the person keeps coming up as stressors in their lives.

Redundant vows block us from fulfilling our potential!
