

Proficiency criteria for the Diploma in Integrated Healing

The pre-requisites for receiving the International Diploma in Integrated Healing are:

- **Attend Pathways, Concepts, Body, Mind and Masterclasses 1 to 4**
- **50 Course hours of any other kinesiology or other healing modality approved by IH**
- **100 Logged balances**
These do not have to be paying clients; balances with friends, family or practice days also count, as long as you have used the complete Pathways Protocol or looped Protocol (not just a Procedure). Also, your corrections in the Heart Chakra do not have to be IH corrections only; you can use any correction/modality from your personal Healing Menu.
The form to use, and be **signed by the client**, is under the Practitioner's section on our website.
- **5 Case studies**
The forms are in the Practitioners section on our website.
- **3 Testimonials from clients**
A few sentences from the client describing their experience of IH, and the impact that IH has had on their life.
- **Repeat the IH courses**
In order to maintain the high standards necessary for accreditation, students will have to repeat Pathways, Concepts, Body and Mind at least once. Masterclasses do not need to be repeated.

Practitioners who have repeated the IH courses have told us that they were amazed at how much information they missed the first time, and how much more clarity they had after repeating.

We offer you the following in order to make this as financially viable as possible:

The cost of repeating is only **half** the original course fee. If you refer new students that attend the IH courses, you get the following discount on your fees (module for module):

1 Student	- 10%
2 Students	- 25%
3 Students	- 50%
4 Students	- 100% (Free)

Assessment fees will depend on venue charges and will therefore be different in each country, please check with your local organiser.

- **A verbal and/or written assessment with us or your local assessor**
You can choose if you want a verbal or written assessment.
Your local assessor is normally your course organiser.
- **A final practical assessment with us or your local assessor**
Doing an IH balance either 'on' your assessor or somebody that they may provide. (The assessor will charge a fee for this.)

Once you have completed the above criteria, you will be awarded the International Diploma in Integrated Healing and will be allowed to use the letters **Dip.IH** after your name.

You can find the forms for the logged balances and the case studies in the Practitioner's section on the IH website.
